PARR'S LIFE PILLS—SUMMER MEDICINE.

THIS popular medicine should be taken by every one valuing their health. No matter how well you may feel, the change of season imperatively demands a cleansing of the system and being without mercury, are peculiarly calculated for being taken with safety at this changeful period. The proprietors beg to state to Spanish, Portuguese, German and French Houses, that this popular medicine is put up with wrappers and directions in each of those languages—accompanied with a neat book, with engravings, of the life and Times of OLD PARR, whose prolonged life of 152 years has long been a subject of curious speculation to those who have wished for length of days. Many medical men and those acquainted with physiology, have deduced from the history of Thomas Parr, that the use of a Herbal Medicine, and regularity of life, are the predisposing causes which led to the 'number of his days.' As this opinion is corroborated by an extract from Parr's Life, Will and Testament, such deduction is reduced to a certainty.

The subscribers having by purchase become the proprietors of this medicine, now offer it as a valuable remedy to the public. The hundreds of unsolicited testimonials of its efficacy in their possession, warrant their soliciting any one who may suppose Parr's Life Pills to be one amongst the many quack nostrums offered to the public, to convince themselves by a call at their office or upon any of their agents in New York, amongst whom they number all the principal Druggists.

VOLATILE AROMATIC SNUFF,
FOR HEADACHE AND CATARRH.
COMPOSED PRINCIPALLY OF ROOTS AND AROMATIC HERBS.

FEW or none of the Snuffs in ordinary use, unite those advantages as an elegant sternutatory which Tobacco combined with other ingredients, is capable of producing. The common Scotch Snuff is not only destitute of fine flavor, but is universally allowed to be injurious to the head and stomach, and sooner or later affects the transparency and color of the skin. The course black Snuff instead of clearing and stimulating the olfactory nerves, serves but to obstruct and deaden them; and in process of time, by stopping the passages has an evident effect upon the speech.

The Volatile Aromatic Snuff will, by experience, be found not liable to these objections—its flavor is fragrant and delightful, the effect pleasing and salutary; it sensibly stimulates the spirits, and removes drowsiness. By repeated experiments it is known to be of essential service to those who are troubled with long, dull, nervous headaches.

In cases of Catarrh, or what is commonly called a cold in the head, a pinch or two taken at night on going to bed, will effectually remove all obstructions.

All those troubled with hypocondria or vapors, will find in this preparation a complete antidote. During the tedious confinement to a crowded house, or a warm atmosphere, after a fatiguing walk or a long ride, a pinch or two of this Snuff will by its grateful and enlivening qualities, richly repay the purchaser the trouble of constantly having it in his pocket.

From its grant and anti-putrescent qualities, no composition is better qualified to resist contagion, the use of it is therefore indispensable for all those, who watch with or visit the sick.

All sedentary and studious persons of either sex, will find its occasional use a cheap and cheering relief from that Lassitude which invariably accompanies a long sitting or much reading.

[Certificate from Dr. Benjamin Waterhouse, Member of the Medical Society in London, of the Medical School in France, and late professor of the Theory and Practice of Physic in Harvard University in Cambridge, accompanies each bottle.

The certificate concludes with these words—"I have frequently used your composition myself, and recommended it to others."

This certificate was given more than thirty years ago, during which period it has been and is still in extensive use in nearly every State in the Union, and with the greatest approbation. ☞ Price 25 and 50 cents per bottle. Also WHITWELL'S ORIGINAL OPODELDOC.

For Bruises, Sprains, Cramp, Numbness, Rheumatism, Rheumatic Pains, Stiffness of the Neck or Limbs, Stings of Insects, Vegetable Poisons, Chilblains, etc.

This well known article has stood the test of twenty years and is still sought for, in every State in the Union, and so high is the reputation that city and country have been flooded with the Allopathic notions of it, to detect the bottles which contain it. Be not imposed upon, have WHITWELL'S OPODELDOC or none, unless you wish to prove the truth of the Hudibrastic remark,
"That the pleasure is as great
In being cheated as to cheat."

N. B. A certificate of approbation from Dr. Sam'l L. Mitchell, M. D., L.L. D. late Professor of Medicine in the New York College of Physicians, accompanies each bottle. Price 25 cents.

BROWN'S SARSAPARILLA AND TOMATO BITTERS.
LIVER Complaint, can be cured without resorting to mercury, if you will only use Brown's Sarsaparilla and Tomato Bitters.

To Mr. Frederick Brown, Proprietor of the Sarsaparilla and Tomato Bitters:

This certifies that my wife was severely afflicted with the Liver Complaint and her health was very seriously undermined. Having tried various prescriptions, without success, she was fortunately induced to try your Sarsaparilla and Tomato Bitters—her health soon began to improve, and she is now much better in health, and would advise any one in ill health to use them.
Yours, respectfully,
Portland, Me. June 3, 1844. CHAS. CARLE.

GOING TO SEA. Masters of Vessels, on going to sea, particularly on long voyages, if they value their own health, or their crew's, should never leave the wharf without one or two dozen of Brown's Sarsaparilla and Tomato Bitters. It is about the only medicine they need. It purifies the blood, and completely cures or prevents SCURVY, which alone is sufficient recommendation; but where persons are going from warm to cold climates, it is of the highest importance. There are many masters of vessels who say they had rather be without their whole medicine chest, than not have a supply of
BROWN'S SARSAPARILLA AND TOMATO BITTERS.

Here is another recommendation from a well known captain of a ship, which sails from Fairhaven, Massachusetts.

Captain Joseph Holley, (of the whale ship Erie) says, Brown's Sarsaparilla and Tomato Bitters, are invaluable to all seafaring men. They should never be without it. No medicine is like it, or half as good, in diseases which sailors are liable to, particularly diseases brought on by living a long time on salt provisions. I have used it on my last voyage, and do know from experience, on myself, scurvy is almost immediately cured by it. Take my advice, and never go to sea without one dozen bottles of Brown's Sarsaparilla and Tomato Bitters, being on board of your ship.

The above is another case in point. Captain Holley is as well known as any other man who sails from New Bedford or Fairhaven.

Post Office, Edgartown, Mass. May 24, 1844.

Mr F. Brown—Sir: Will you have the kindness to forward me by the schooner Energy, now in Boston, at Central wharf, opposite Messrs. Hewins & Fisher's Store, 6 dozen bottles sarsaparilla and tomato bitters. A Capt of a ship bound on a Cape Horn voyage, wishes more than I have on hand to supply him with; I therefore send this to be mailed in New Bedford, so that you can send them up by the Energy. Should I delay sending the order until to-morrow's mail, it would be too late to send them by the Energy. By complying with the above request you will oblige.
Yours respectfully,
SILVANUS L. PEASE, Post Master.

100 STREETER'S HYMNS for the service of the Universalist Church, just received and for sale at BUGBEE'S.

SUGAR COATED, OR "Improved Indian Vegetable" PILLS,
For Intermittent, Remittent, Bilious, and Inflammatory Fevers; Head Ache, Indigestion; Dyspepsia; Perverted Appetite; Heartburn, Costiveness, Diarrhoea, Dysentery; Bilious Colic; Worms; Foul Stomach; Pain in the Head, Side, Back, Scrofula, Scurvy, or any Impurities of the Blood; Obstructions and Female Complaints generally.

THERE has never appeared a medicine, which, while "it can do no harm, is calculated to do so much good. They excite a healthful perspiration, and open all the natural drains of the system. The obstruction of Insensible Perspiration is the cause of a great proportion of human suffering. These pills possess the power, in an extraordinary degree, of removing all obstructions, and restoring a healthful circulation. They must undoubtedly supersede all other purgative medicines, as they have a four fold action—viz: a discharge by the bowels, lungs, kidneys, and skin.

Children will not hesitate to take them; and they may be relied on, beyond any other remedy, as an effectual and safe Medicine for WORMS, and all complaints incident to children. More children have been cured in New York the present year, by the use of Dr SMITH'S Pills, than all other medicines combined—as there is no need of forcing them down, like other medicines.

One important advantage in taking these pills is, they do not gripe, nor produce nausea nor any other unpleasant sensation. Pills have, in thousands of instances, produced Piles, and other consequences far worse than the disease for which they were administered. This is particularly guarded against in the combination of the many ingredients of which Dr Smith's pills are composed—thus rendering them HARMLESS.

These pills are made of the purest materials; and we have the satisfaction of having proved to the Medical Faculty, that they possess uncommon virtues.

The directions, and treatment of diseases, accompany every box, in a circular of 4 pages.

No "SUGAR COATED PILLS" can be genuine without the signature of the sole Inventor, "G. BENJAMIN SMITH, M. D., President of the N. Y. College of Health," upon every box.

Office devoted exclusively to the sale of this medicine, 179 Greenwich street, New York; No 2, Water street, Boston.

[From a Nephew of the late Judge Thompson.]
New York, May 15, 1844.
Dr. Smith's "Indian Vegetable Pills" have proven invaluable to myself and family, in the cure of violent head ache, pain in the side and stomach. For children, no better medicine can be produced. In the case of our little girl, two years old, the most happy effects have resulted from their use. I have never known a medicine which I could so confidently recommend as these pills. R THOMPSON, 5th Northmore street.

The following lady is too well known in New York for her intelligence and philanthropy to be doubted.

[From the Matron of the U. S. Naval Hospital.]
Accustomed as I am to administer to the sick, I can appreciate a valuable medicine. If there be a medicine adapted to the numerous ailments of mankind, it is Dr. Smith's Sugar Pills. I have used them and seen them used with the most astonishing results, in several instances within my knowledge, restoring the patient from extreme lowness and suffering to strength and health. For ladies during pregnancy, these pills are a sovereign balm. I recommend them to all as a valuable FAMILY MEDICINE.
SARAH A. GOULD,
Matron of the U. S. Naval Hospital.
Brooklyn June 10th, 1844.

[From the Deputy Sheriff of New-York.]
Dr. Smith's "Surgical Indian Vegetable Pills" have been used in the Eldridge-St. Debtor's Prison with uncommon satisfaction. I have never heard a medicine spoken of with more interest by the sick who have taken these pills. JAS. J. BEVINS, Deputy Sheriff.

[AN EXTRAORDINARY CURE.]
I have to record an instance of unparalleled suffering, which must have terminated my existence, had not Dr. Smith's "Sugared Indian Vegetable Pills" come to rescue. In the Fall of 1843, I had a Scrofulous affection, which nearly covered my body with sores, and rendered me unfit for life. In the course of two months I was attacked with fever, which raged with great violence. I took many prescriptions, but without getting relief. My suffering was great. Mrs. Gould (whom I shall ever remember with esteem) advised me to use these Sugar Pills; which I took in large doses a few days, when the fever and pain abated. I continued these pills in small doses, about five weeks, when my Fever and Scrofula were cured, my blood completely purified, and my general health improved.
I am certain I owe my life, under Providence, to the use of these pills. E. M. PARK, New York

[From Jas. M. Turner, Esq., late of the U. S. Navy.]
I have been afflicted several years with a weakness in the breast, costiveness and difficulty of breathing. I was lately more than ever troubled, though I had taken many prescribed remedies. Through the advice of a friend, I procured Dr. Smith's Patent Sugared Pills, which I used, and they have not only relieved, but entirely cured my complaints. My wife has also used them with the most happy effects. I believe them the best medicine in the world.
JAMES M. TURNER, 581 Greenwich-St. N. Y.
Refers to the Hon Silas Wright, U. S. Senate.

PERFECT CURE OF WORMS.
Our little girl, 6 years old, has suffered all the worst stages of worms; and we have never found an effectual cure, until we administered Dr Smith's Sugar Pills, which our little girl took without the least reluctance, in doses of two at a time, and we never witnessed such a change in so short a time. The pills brought away a mass of worms, and she at once improved. She is now in joyous health. We have also found the great est benefit from their use.
JACOB CARLOCK, 8 Staple-st. New York.
We have many certificates of cures in cases of Worms.

From a lady well known in New York.
I have been troubled for years with dizziness and pain in the head; attended with depression, dimness of sight, &c., which have been entirely cured by Dr Smith's "Sugared Indian Vegetable Pills." I prize this medicine above all others. SARAH DOUGLASS,
Corner of Ludlow and Walker sts.

The following is from one of the oldest and most respectable farmers in Madison Co. N.-Y.
Cazenovia, July 28, 1844.
I have used 40 boxes of Brandreth's Pills, and as many more of different kinds, and I have never found that benefit from the use of the whole that I have from the use of two boxes of Dr Smith's "Improved Indian Vegetable Pills."
They seem to strike at the foundation of my disease which is of a billious character. IRA ALVORD.
[Mr Alvord was, with another, the first settler of the beautiful village of Cazenovia, about 50 years ago.]

OLD MEN and YOUNG MEN have without number, given their testimonials for these excellent family pills. And MOTHERS! we wish we could lay before the world all the expressions of approbation which we have heard from them in New York. They would alone fill this page. The fact is; there never was such a medicine for the complaints of children.

WRIGHT'S Indian Vegetable Pills, OR INDIAN PURGATIVE.
THOUGH many medicines have been before the public for a much longer period than Wright's Indian Vegetable Pills, yet none stands now in higher repute, or has more rapidly attained a firm hold upon popular estimation. The thousands that have used them throughout the length and breadth of the Republic, all bear cheerful testimony to their thorough efficacy and mild operation, when employed in the most distressing disorders which 'flesh is heir to.' To those, however, who have not used them, who are suffering in the incipient or advanced stages of disease, and who are looking round for weapons wherewith to combat the Destroyer—intelligent inquirers, who must be satisfied with the theory and principle of a course of medical treatment, before they commence, it becomes necessary to make a few preliminary remarks on this *invaluable medicine.*

The theory of disease on which WRIGHT'S INDIAN VEGETABLE PILLS are founded is this, viz: That there is only one primary cause of all the disorders which afflict the human family, and that is corrupt humors—or, in other words, impurity of Blood. This principle is now so generally admitted, that it may in fact be said to be sustained by an universality of opinion—the few dissenters constituting but a very feeble minority. It is useless, therefore, to discuss the soundness of this theory in this place and connection.

The ONE DISEASE PRINCIPLE being admitted, the mode of attack professed by all practitioners becomes the same, viz: *Purgation.* But many of the so called specifics now before the public produce only one form of purgation; they are either Sudorific, Cathartic, Diuretic or Expectorant. Wright's Indian Vegetable Pills combine all these properties, and are therefore calculated to attack the elements of disease at all points, and by a harmonious and combined operation, to expel it radically from the system. Their effect is almost magical, and is no less astonishing for its mildness than its efficacy. Both sexes and all ages may employ them, according to the direction without fear, for while they are certain to cure ALL DISEASES that are remediable, they *never* inflict an injury upon the system.

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect. The nearer we approach to nature, in our researches after truth both in science and art, the more complete will be our success in both. Look at the uniform physical condition of the Indian Tribes of this continent, whether exposed to the frosts and storms of the North, or to the rain, heat, and pestilential miasma of Southern climate. Houseless, unprotected, exposed to every atmospheric change, every extreme of the seasons, dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man, who enjoys all the comforts of civilization, with its attendant arts, is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions. How does this happen? Simply because, bereft of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering, and the mitigation and cure of disease—sowing them broadcast on every hill and valley. Let those who impiously arraign the good justice of Divine Providence, and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man and study the secrets of nature, and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one.*

These Pills, as we before remarked, operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid, in the homely but expressive phrase, 'a new man;' whether the disease is INCIPIENT CONSUMPTION, which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friendly ear, or Cutaneous, showing itself upon the skin in eruptions or blotches; whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger. Their expectorant, cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease.

The *perfect safety* of the medicine is another all important quality, and one which has contributed more than any thing else to its extension and popularity.

In a word, this medicine commends itself strongly to the patronage of the public, and its use bids fair to become, before long, ALMOST UNIVERSAL.

CAUTION.
The citizens of New England are respectfully informed that, in consequence of the great popularity which Wright's Indian Vegetable Pills have earned, by their astonishing goodness, a gang of Counterfeiters are now industriously engaged in palming on the unsuspecting a VALUELESS and perhaps dangerous medicine, under the name of Indian Vegetable Pills.

☞ BEWARE OF A. J. NORCROSS, of Hallowell, Maine, who is selling COUNTERFEIT PILLS.

This is to inform the public that the genuine medicine has on the boxes—
"WRIGHT'S INDIAN VEGETABLE PILLS."
Indian Purgative—
OF THE NORTH AMERICAN COLLEGE OF HEALTH.
And also, around the border of the label will be found in small type—

CURE FOR PIMPLES ON THE FACE.
THESE complaints are among the most painful and dreadful to which human nature is subject. Comstock & Co's Extract of Sarsaparilla, in all scrofula diseases, cutaneous complaints, ulcers, mercury in the blood, pains and swellings of the bones, and diseases of the liver is a most excellent medicine. It first operates upon the blood, removing all the diseased particles it contains, and other parts of the system. It is concentrated extract, containing the very essence of the root, and prepared in the most scientific manner. Those who have been for a great length of time suffering under any of the diseases named, will find this Sarsaparilla of great benefit. As a general Spring Medicine to purify the blood, and give the vital fluids their natural circulation, to expel from the bowels all their morbid secretions, and to change the general habit of the system—in short, to prepare the whole physical system for the enervating heats of summer, there is no preparation so efficient as Comstock's Sarsaparilla. Price 50 cents per bottle, or $4 per doz. Warranted equal to any sold at $1 per bottle.

STARTLING FACTS.
HUNDREDS of children and adults are lost yearly with worms, when some other cause has been supposed to be the true one.

It is admitted by all doctors that scarce a man, woman or child exists but what are sooner or later troubled with worms, and in hundreds of cases, sad to relate, a *supposed* fever, scarlatina, cold, or some other ailing carries off the flowers of the human family while in truth they die of Worms! and these could have been eradicated in a day, by the use of a bottle of KOLMSTOCK'S VERMIFUGE, at the cost of a quarter of a dollar!

MISCELLANEOUS.
From the United States Gazette.
The Printer's Doom.
BY THOMAS MACKELLAR.

A printer, weary and wan,
His face all mortally pale,
As he wearily plodded his homeward way
Before the breaking of early day,
Broke out in bitter wail.

His voice was husky and low,
As though his lungs were gone;
And he coughed and gasped, and coughed again,
And he pressed his hand on his heart in pain,
While thus his plaint ran on:

"A world of toil is this!
It has no joys for me:
This labor by day, and labor by night,
By the light of the sun and by candle light—
Labor continually.

"Some men have a day of rest,
But Sabbath for me is not:
It is toil all the week, and toil on the day
That God has given to rest and pray—
Lo! this is the printer's lot!

"When I was a boy," he said,
"I played on the hills of green;
I swam in the stream—I fished in the brooks—
And blessed was I to sit and look
Unfettered on Nature's scene.

"For twenty sad years or more,
My life has worn away
In murky rooms of poisonous air,
When I've yearned for a sight of the vallies fair
And the light of open day.

"An innocent prisoner doomed,
My heart is heavy within:
Oh why should a man untainted by guilt,
Who the blood of a creature never hath spilt,
Be pent, like a felon, for sin?"

The printer then coughed and sighed—
The stars were growing dim,
And he upward glanced at the morning sky,
And he only thought it were good to die,
And death would be rest to him.

His heart was tired of beating:
He prayed to the Lord above
To pity a man whose heart had been riven
By toil for other men's interest given—
And he wept for His mercy and love.

He hied to his humble home:
His infant awoke to cry,
"Oh, father! Oh, mother! I'm hungry for bread!"
And the printer bowed down with an aching head.
On his Mary's lap to die.

Oh ye! who have never known
The richness that's in a crust
When nothing is found on the desolate shelf,
And the sufferer's pocket is empty as pelf—
Receive my story on trust.

Say not in your careless scorn,
What boots the tale to you!
The rhymer who traces these roughly writ rhymes
Hath known of such sufferers in other day times,
And the main of his rhyme is true.

Remember this holy truth—
The man who aloof has stood
When a heart-broken brother for succor did crave,
And he stretched not a finger to bless and to save,
Is verily guilty of blood!

The Liberty Party.
Some of our neighbors and personal friends who are members of the 'Liberty' party have expressed to us the thought that we unnecessarily charged their party with aiding, even indirectly, the election of Mr. Polk. They have referred us to New York papers in proof that we gave this matter more prominence than did the Whigs in New York.

We just desire those friends and others to read the following remarks of the editor of the New York Tribune and then say if they can, that we have misapprehended or misstated the facts regarding the effect of the 'Liberty' party movement in New York.

Notes on Abolition.
We love not Slavery; we hope and trust we shall live to see it banished from our country, and we mean to do what is in our power to aid that consummation. In doing this we shall choose our own time and means, avoiding abuse or denunciation of slave-holders, even though they be wedded to the system, and believe it should be fortified and perpetuated. If they choose to denounce us for our conscientious hostility to their cherished institution, that is their affair; but if they will hear us, we confidently expect to convince them that slavery is, if not a grievous wrong to the slaves, certainly a curse to the slave-holders, and a scourge to the community which cherishes it—that it is this, and not something else, which is steadily changing the fertility of the South to barrenness, and retarding its Social and Industrial progress.

On this vast and profoundly interesting subject we should have spoken more fully and frequently, but for the existence and baleful influences of that cause of so many calamities, the Abolition party. It is this which aggravates to absurdity the sensitiveness of the slave-holding section to any discussion of or comment on Slavery, either at the North or the South. We can well remember the time when Southern as well as Northern philanthropists, statesmen, and journals discussed this subject freely, and condemned Slavery with a freedom and severity which the South now does, but then did not, regard as incendiary. It is this misnamed 'Liberty' party which now stops the ears and closes the gates of the South to any presentment of the facts and arguments which should impel to the Emancipation of the slaves. It is this same party which has just given the State of New York to Polk and Dallas, and thereby extended the slave region of the Union from the Sabine to the Colorado. It is this Liberty party which has wilfully, wickedly given a new life-lease to Slavery in our country, by opening a new and vast market to the cupidity of slave breeding, and lining with gold the pockets of the slave-traders! God forgive the ignorant and simple many in the ranks of this party, for they knew not what they did! but for the Leavitts, and Birneys, and Alvan Stewarts—convenient instruments and accomplices of our Calhouns, McDuffies, and Polks—there must be a righteous retribution!

It is by the Liberty party mainly that our majorities in the great Whig Counties are broken down, while Cortland, Chenango, Clinton, &c. &c. are turned against us. Our friends in the interior, in sections where Abolition flourishes, had no more untiring or venomous adversaries than the members of the miscalled Liberty party, who were every where recognized and fellowshipped by the Loco-Focos as their most serviceable allies. In some cases 'Liberty' newspapers have been subscribed for in quantities by the Polk Committees and scattered broadcast over their Counties, as their ferocious assaults on Mr Clay and their abuse of him as a slave-holder, a gambler, profligate, &c. would be more effectual than if poured forth through their own better known conduits. At one poll in Oneida Co. we are informed that a leading Abolitionist openly electioneered with Birney and Polk tickets in his hands, entreating every one to vote for Birney first, but if not so, then for Polk—at any rate, so as to defeat the immoral, abhorrent Clay! In Deerfield, Oneida Co. we hear that several who electioneered savagely for Birney, themselves voted for Polk! This may not be so, but in spirit the conduct of the whole party through the contest has been no better than this. The old game of two upon one has been played most intently by the junto who gamble for office with slave whips and collars, from Birney down, and it has succeeded, as it generally does. All through the contest the Albany Argus and its satellites have been patting Birney on the back, explaining and defending his course, and evidently regarding him as the cousin or next friend of Polk and Texas. We shall see how the holy alliance gets on.

Novelty in Manufactures.
The French have lately made a discovery, well worth notice in this country, by which they are enabled to make ornaments from "peat." It appears that the peat, "when taken from the bog," is reduced by beating to a fine pulp, and is then placed under a press, to force out all humidity except such as is necessary to keep it sufficiently moist to receive impressions in the mould in which it is placed. In this state it may be converted into ornaments of every kind such as are made in embossed leather. Rendered firm by a solution of alum, or other adhesive material it forms flooring of a cheap and durable kind.—Of billiard tables, too there are various specimens a rich and beautiful one has been produced in France, valued at 15,000f. May not Ireland, with its ample bogs, turn this novelty in manufactures to advantage.

Foliage of our Forests.
English travellers often speak of the beauty of the American forests in autumn, representing that the old world has nothing equal to them in the variety and commingling of colors. Some of the lovers of nature go into our woods, and gathering the prettiest leaves, press them for preservation. Soon after Mr. Everett, our present minister to St. James, went to England, his lady and daughter went to a party consisting of the nobility, wearing a wreath of our forest leaves in a fine state of preservation.

The wreaths attracted the admiration of all, and so strong was the admiration of them, that Mrs. Everett was asked where she procured the wreath. She replied that it was made of American leaves in their natural state. The English could not credit this statement, but asserted that the leaves were artificial. To convince them of the actual state of the leaves, Mrs. E. sent to Boston, and the next fall, the most variegated of our forest leaves were sent to England, as presents to Mrs. E's incredulous friends.

Prices Current.
Gloves go *off* well, but there are many *on hand* at present.
Lead pencils generally find a good *mark it.*
Anchors are still heavy and low; but in some parts where they find *sails*, they are coming up.
Nutmeg, the demand for this article is *grater.*
Silks move off briskly but some kinds are very changeable.
Parrots, there are several fine ones in market, which have made much talk, but nothing more than what has been said before.

A number of the booksellers of New York, headed by the Harpers, have presented a superb rocking chair to Miss Jane Porter the author of "Thaddeus of Warsaw," &c., as a compliment to her genius.

Let every thing be saved for winter fodder that is eatable by your animals. "We hear it foretold by our veteran farmers, (says the American Agriculturist,) that the coming winter will be a tolerably severe one. They say they have never seen a season of great abundance, especially in fruit, that was not followed by a hard winter."

An Episcopal Church is about to be formed in England, independently of the existing establishment.

A correspondent of the London Agricultural Gazette, says: "A wash made of two-thirds cow-dung and one of lime, laid on with a brush is an effectual remedy against cattle injuring the bark of trees."

None can tell what the next minute will bring forth, and the only plan is to be prepared to take advantage of whatever may happen, for circumstances must be hard indeed that will not permit wise and quick-witted men to abate their evil or to augment their good.

There are many things scattered over the farm that are worth saving, and may be turned to profitable use, if taken care of *now*, but which will lose their value, if neglected much longer. Of this character, are substances for manure and litter—such as vines, potato tops, leaves, bog herbage, &c.

Buying the necessaries of life by the nine pence worth, for the sake of living in a three story house, is very poor business.

conquer the thousand petty trials and annoyances of the kitchen department. But to return to the subject of my epistle. The lady to whom I refer is a resident of your own village. From some little circumstances which have occurred, I fancy she is puny; so much the better. I have wealth enough for both.—She was called suddenly away by the sickness of her mother, and I fear through the unkindness and severity of our barbarian of a Postmaster, she did not reach home in season. I am strongly inclined to think, use my utmost efforts to procure a reduction of postage, and annul, if possible, the recent tyrannical restrictions of those now in authority.—The Law is at present enacted as a heavy burden upon the people, especially at the West. The inhabitants here are closely connected by ties of blood with the East and letters should be taxed as lightly as possible. At present they are a dear bought luxury. But more of this when we meet, for I trust soon to see you in your home; and when at your fireside, I will tell you all my plans for the future. At present, I ask a share of interest and in helping on my cause. Would that I were with you now for then I should be so much nearer her

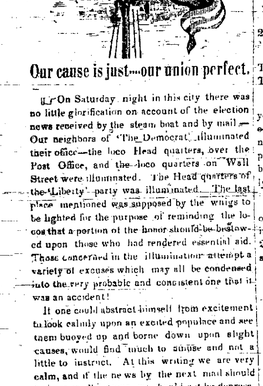
Your affectionate Cousin,
Fred Anthon.

"Well really," said my husband, as I finished, the man must be deeply in love, for he has forgotten to tell us the name of his fair enslaver and yet cravenly remained. I smiled for I had not failed then observed the omission—and shall preserve it as a matter of joke for the lover himself. At present my rag carpet is deferred, as the employment will hardly be consonant with the high-flown Quixotic feelings of Cousin Fred

Whig and Courier.

JOHN S. SAWARD, Editor

WEDNESDAY, NOV. 13, 1844.



Our cause is just—our union perfect.

☞ On Saturday night in this city there was no little gin rification on account of the election news received by the steam boat and by mail—Our neighbors of the Tribune, Democrat, illuminated their office—the loco Head quarters, over the Post Office, and the loco quarters on Wall Street were illuminated. The Head quarters of the Liberty party was illuminated. The last place mentioned was supposed by the whigs to be lighted for the purpose of reminding the locos that a portion of the honor should be bestowed upon those who had rendered essential aid. Those concerned in the illumination attempt a variety of excuses which may all be condensed into the very probable and consistent one that it was an accident!

It one could abstract himself from excitement to look calmly upon an excited populace and see them buoyed up and borne down upon slight causes, would find much to smile and not a little to instruct. At this writing we are very calm, and if the news by the next mail should be ever so disastrous we should not be depressed. We have been down there and back again. But if the news should come unexpectedly favorable to the whigs and show the election of that splendid man and noble patriot Henry Clay, we should not dare say that we would not join in about the loudest whig cheers that ever were heard! The worst of it is, we are afraid we shall not be tempted!

Ellsworth.

The indomitable and glorious Whigs of Ellsworth have won for themselves imperishable honor in the recent election. They have made for themselves a green spot in a perfect desert of Locofocoism, and this too against drilled leaders and a cordon of office holders, numerous and unscrupulous. Such efforts on the part of our Whig friends are worthy of all praise and deserving the highest success. We thank them for their generous and in behalf of the noble cause they have so zealously espoused and manfully maintained. The following is the vote:—

November			September.	
Clay	Polk.	Birney.	Rob.	And.
248	247	1	241	202

In most of the towns heard from in Hancock and Washington Counties there is a small Whig gain.

Duties.

Those persons who have not yet secured their cellars from the frost, mended up the broken windows, nailed the loose boards upon their barns, made the pig pen snug and warm and provided for the approaching cold weather, should neglect these matters no longer. Examine your chimnies and stove pipes and see that all are safe. Another duty should be performed if not already attended to and that is to get insured against loss by fire, or if you have a fair yearly income which may stop on you, dec. see just get your life insured for the benefit of your family. Do your part towards supporting public schools and try and have yours the best on any in the State. Encourage singing schools, Lyceums, Debating clubs and social libraries—Keep the mind at work, the heart active; be industrious and prudent, kind-hearted, social, forgiving and devout; and the winter will pass pleasantly along and at its close, although you may be older, the end of life, you will be a much nearer haven.

Georgia Election.

We have returns from 16 counties from this State giving the following result Clay 2509 Polk 427—Whig majority 2082 making a Whig gain of 505 leaving 1825 yet to overcome from the October Election.

Indiana Election.

The New York Tribune gives reports from several counties in this State showing large Whig gains. We do not know that they can be relied on, but they are highly probable.

North Carolina Election.

We have returns from 28 counties in this State which look favorable as these are from the loco strong holds. In these counties Polk's majority is 3042 whig loss 393, on a majority of 3153. This will most probably give the State to Clay.

Kentucky Election.

From this State we have returns of the first days's voting in Covington precinct and Newport precinct. There is a whig gain in each place.

☞ The Boston Daily Mail states that a good deal of excitement has been produced in the city for two or three days past by an article in the Boston Pilot (an Irish Catholic paper) which has construed into a threat that, unless the Nunnery on Mount Benedict is stoned for, the State House in Boston will share the same fate.

☞ A magnificent bed of Diamonds has recently been discovered in the great Mexican mountain range S W of the city of Mexico,

☞ It has recently been ascertained by a scientific survey that the depression of the Caspian Sea below the level of the Mediterranian is 83,6 English feet and not 300 feet as has been supposed

☞ The locos in Boston got up a torch light procession a few evenings since and on one of the transparences was this motto! TEXAS MUST COME IN.

☞ Polk's majority in New York will be 4644.

☞ Polk's majority in Virginia is reported at 2647.

The last nip of the result is not yet decided There is at least a ray of hope for the whigs. The question will soon be settled.

☞ A generous slice of a Bridal loaf received yesterday reminded us of the pleasant fact that our young merchants continue the laudable business of taking to themselves wives. This is a perfectly safe transaction for our young men and by which their credit and their comfort is greatly enhanced.

☞ We are requested to state that the meeting of the Board of Missions at St John's Church in this city will take place on the 19th, 20th and 21st inst. and not the present week as has been stated.

STATE OF MAINE.
BY THE GOVERNOR.

A PROCLAMATION,

For a day of Public Thanksgiving and Prayer

Entertaining a deep sense of religious obligation, the people of this State have been accustomed, biennially and publicly to render to Almighty God, an annual tribute of gratitude and praise.

The various and striking tokens of His unfailing goodness by which the past year has been distinguished, invite us, at the closing season, to humbly approach His presence, and renew unto Him, who has so signally favored us our service and devout acknowledgments—by assemble in the temples devoted to His worship, and with united voices offer to the Giver of all—Good, the incense of grateful hearts.

Impressed with a sense of its propriety, and in compliance with established usage, I do, with the advice and consent of the Council, hereby appoint Thursday, the FIFTH DAY OF DECEMBER next, as a day of Public Thanksgiving and Prayer and the people of the Union be requested to dedicate the day by the performance of such religious services, as are appropriate to the occasion, and to abstain from employments and recreations inconsistent therewith.

The season has been one of unusual abundance; the labor of the husbandman has been rewarded by a plentiful harvest, and industry in all its branches has been liberally compensated.

Our citizens and their families have been happily exempted from desolating sickness and have enjoyed the blessings of uninterrupted peace.

A proper respect for the laws which govern them, and an increasing attachment to the institutions, under which it is their happiness to live; have been manifested by all classes of the community; and in the existing conflict of opposite opinions, a commendable spirit of forbearance and moderation has been mutually exhibited.

The interests of religion, of education, and of philanthropy have been, by the favor of God, encouraged and promoted; the cause of temperance has been every where distinguished by zeal and salutary influence, and in several sections of the State, has received a new and invigorating impulse.

Habits of industry, regularity and economy have prevailed among our people, and their legitimate fruits of public and private prosperity are scattered around us.

In the quiet and peaceable enjoyment of such favorable blessings, it is proper that we should celebrate this yearly festival with cheerful and fervent gratitude to the benefficent Being from whom they flow: that we should endeavor to make ourselves more worthy the privileges He has granted, by a careful performance of the duties He enjoins, and by a suitable improvement of the gifts and graces He has so liberally imparted, seek to obtain His continued protection and favor.

And while rejoicing in the bounty of an indulgent Providence, let the claims of the unfortunate and the suffering be kindly remembered; let the hand of charity be freely opened to relieve the wants of the destitute and poor, and the voice of consolation and sympathy be heard in the dwellings of the sorrowful and afflicted.

And may the instructive lesson which the declining year is calculated to teach, have its proper influence upon our hearts and lives; admonishing us of the instability of earthly enjoyments, may it lead us to immediate and effectual preparation for the life to come; and by a diligent improvement of our religious opportunities, may we all be enabled, through the intercession of our Redeemer, to join in the praises of God in Heaven

Given at the Council Chamber, at Augusta, this tenth day of October, in the year of our Lord one thousand eight hundred and forty-four, and in the sixty-ninth year of the Independence of the United States.

H. J ANDERSON.

NOTICE TO ROAD MAKERS.

THE undersigned Land Agents of the Commonwealth of Massachusetts and State of Maine, will receive sealed proposals until the fifteenth day of January next for cutting out and grubbing a part of the Eastern Aroostook road in like manner with that part of said road through Lot No 3 in the 4th Range, and for the construction of a new road from the termination of the twenty-first mile to and extending the same to the river St. John, at or near the mouth of Violet stream (so called) as surveyed by Wm. P. Parrott the last Summer, being a distance of about twelve miles, also for making a Bridge over the little Madawaska river in the line of said road.

Persons wishing to Contract, will state in their proposals what price per rod they will cut out three rods in width, and grub at least twenty-two feet in width of that part of said road where causeways are not necessary, and at what price per rod they will make the causeways at least fifteen feet wide where they are necessary, and smooth the whole road suitable for wheel carriages—and at what price they will build a good substantial bridge of the best and most durable construction over the little Madawaska river. We will contract for the whole together; or the bridge separately and divide the road in two equal parts as may be most convenient to the Contractors, and also for completing a causeway in letter I.

When the proposals are opened, the undersigned will contract with the person or persons whose proposals are most favorable, provided the offers are such as we deem reasonable, and provided, also, that good bonds are given for ensuring the completion of the work on or before the first day of November, 1845.
